

Standard Courtroom Modules

The standard courtroom modules include all the furniture necessary to complete your courtroom project.

- Judge's benches
- Wood platforms
- Witness stands
- Clerk desks
- Attorney tables
- Jury boxes
- Legal lecterns
- Dividers and rails

Judge's bench

Attorney table

Traditional style courtroom

Attorney Tables

Attorney table styles range from simple four corner legs, to panels with molding, to elaborate cableways that can be ganged together.

Legal Lecterns

The lectern can be a pivotal unit in the modern courtroom, where it often serves as the command post for various monitors and screens. Lecterns can be designed to accommodate document cameras, laptops, DVD players, LCD monitors, a microphone, or other specialized equipment.

Lectern with fluted column accents

Lectern fully wired for fiber optic cable

Judge's Benches

Judge's benches are available as free-standing modules or as the main part of an ensemble that includes the witness stand and court reporter desk. Platforms come standard at 6" high but can be made 12" or 18" high. Platforms feature integrated cableways below the deck.

Modular judge's bench

Built-in judge's bench with attached witness stand and court reporter table

Witness Stands & Court Reporter Desks

Standard witness stands feature a high modesty panel and an 18" deep work surface.

Built-in court reporter desk

Free-standing witness stand

Jury Boxes & Dividers

The jury box below was built for a U.S. Navy courtroom in Naples, Italy, and has solid wood raised panels. It features a platform in the front row and a higher platform in the back row — both of which will be carpeted in the field. They also have removable plywood decks and integrated cableways through the joists.

Many courtrooms employ rails or dividers to separate the courtroom area from the public area. Arnold Contract offers courtroom dividers that are fixed, or fully mobile on casters.

Divider gate

Divider with raised panels

Council Chamber Furniture

Council chamber furniture is a subset of our courtroom furniture. Many municipalities have a multi-purpose room that serves as a courtroom, commission chamber, and hearing room. Our courtroom furniture offers many attractive solutions for your space.

Table with a black reveal and black metal power and data units

Hearing Rooms

Administrative hearing rooms provide another area for our courtroom modules. Arnold Contract has provided hearing rooms for many administrations.

Bullet proof judge's bench

Litigant tables are bolted to floor

School Courtrooms

Arnold Contract has provided courtroom furniture for many secondary schools. The courtroom featured here is in Birdville, Texas. The judge's bench features a wheelchair ramp going to the judge's bench platform.

Academy Courtrooms

The Academy is a simple basic style that is suitable for school and hearing rooms. With vinyl edges, laminate tops and rounded corners, it offers a safe and durable option when budgetary concerns are paramount.

Shown in the renderings above are typical attorney tables with full modesty panels and a wood apron. The judge's bench sits on an unfinished wood platform that is typically carpeted by others. The witness stand and court clerk flank the judge's bench.

Design & Fabrication

Arnold Contract can provide assistance with the design and layout of your courtroom. Simply give us the size of the room and the quantity and style of components, and we will work up conceptual renderings to help you visualize the finished configuration.

We will work up a scale rendering that gives you a good idea of how the finished courtroom will look. These renderings are then turned into CAD drawings.

Installation

Arnold Contract courtroom furniture is distinguished from millwork by the fact that our units are entirely finished and pre-assembled at our factory in New Jersey. Installation in the field is relatively quick and easy. Furthermore, our units can be disassembled and relocated if necessary.
