Description

The Villa Single Circuit Series is a flexible two part power data system consisting of a power base which is mounted beneath the work surface and a selection of grommets allowing customization of the table top. The unique convenience receptacle, located on the power base, provides easy access for meeting various ancillary power requirements.

The Villa is great for training tables. The unit is available in five different metal finishes. The Villa is UL listed. The metal lid is 5.68' x 3.39' when closed.
