Product Information:

1. **Woods/
Veneers:** All solid woods and veneers used on exterior surfaces are #A select grades. Plain sliced *American Walnut*, *White Oak*, *Maple*, and *Cherry*, applied in a “reverse slip match” fashion resulting in a balanced appearance, as well as slip match *Sapele* (Mahogany), are the standard veneers used. Anigre veneers are available at an upcharge. Every effort is made to match solid wood and veneer of like color and grain, however, since wood is a natural material, some variation in grain, color, and character may occur. This variation is not considered a defect.

Arnold wood sample color chips are dated, and only chips dated with the current year should be used. If older samples are used, please send the sample used with the purchase order for proper color adjustment.
2. **About
Woods:** Arnold Kolax Furniture would like to take this opportunity to point out to its customers several of the distinguishing characteristics that make wood such a unique material with beauty and charm:
 - No two trees are exactly alike, and as a result, natural variations in color and tone are to be expected.
 - Solid woods and veneers accept stain in varying degrees, thereby contributing to slight differences in shading.
 - Woods are highly susceptible to color changes from exposure to light, particularly from the ultraviolet rays. Cherry is extremely photo sensitive. It is recommended that the end user be instructed to avoid placing wood products in areas with prolonged exposure to direct sunlight. This will help to minimize, though not eliminate, color changes.
 - Properly maintained levels of humidity in the environment where the furniture is placed should also minimize instances of warping, checking, and cracking of veneers and solids. Fluctuations in humidity and temperature may cause panels and solid wood components to expand and contract, and may lead to panel warpage and finish checking or cracking. Prolonged exposure of furniture to dry heat during winter months should be avoided.

A minimum humidity level of 45% in climate controlled buildings is very important for the proper care of natural wood products.

Note: Due to the nature of Burl and Crotch veneers, the temperature and humidity of the environment into which the product is placed may cause changes to the face veneer. Arnold cannot be held responsible for checking and/or shrinkage that may occur over the course of time.
3. **Wood
Finishes:** Arnold Kolax Furniture offers a substantial number of different stains on *White Oak*, *Walnut*, *Sapele* (Mahogany), *Cherry*, *Anigre* and *White Maple* solid woods and veneers. A “seven step” open pore finish is standard. It is a rich, lustrous, water and alcohol resistant, 40° satin sheen, multi-coat pre-catalized top coating applied over a “hand rubbed” wiping stain. Color consistency is maintained by constant comparisons to “control panels” at every step in the finishing process.
4. **Special
Wood
Finishes:** Arnold Kolax Furniture, Inc. provides its customers finish matching capability. Customer must submit a 3" x 3" sample of the finish to be matched.
The amount of upcharge is based on the following criteria:
 - \$82.50 minimum on any special wood finish.
 - Color matching only of samples with open or closed pore finish: +15%
 - Color and texture match of closed pore finishes: + 25%
 - Closed pore finish (top surface only) on any Arnold standard wood stain: + 10%
 - Buffed/polished appearance: call factory.
 - Finish matching requiring bleaching will result in an additional charge. The factory reserves the right to make the final determination.
5. **Plastic
Laminates:** Arnold Kolax Furniture offers both complete plastic laminate products and wood products with plastic laminate tops. In addition to the above, most products offered by Arnold Kolax Furniture are also available with laminate tops, at no additional charge, in any color or texture of your choice from Plonite, Nevamar, Formica, or Wilsonart.
6. **Natural
Stones:** Marble and granite tops are available on selected Arnold Kolax Furniture products. They can be either inlaid or overlaid (no wood edge). Please refer to the individual product sections to determine which products are available with stone tops.

Please note that not all granites are available on any given product; consult the introductory pages at the beginning of each section for availability.
